About Us

**Being successful is easier than sustaining success for lifetime
And, if your business strategy has the apt intention you build
your own pathway of achievements.**

We, at JNR Management were established in the year 2003, with the prime objective of assisting organizations, stay secured against the murky world of cybercrime. The amalgamation of continuous hard work, innovations, and commitment is the reason that we are one of the front-runners in the PKI industry. The new benchmarks set by us are appreciated in the entire industry, and even our competitors admire us for our sophisticatedly designed business parameters.

Head Quartered in New Delhi with a forward-looking technological infrastructure backed by masterminds of technology, we have an ever-growing client base all over the world.

We enjoy the honor of being acknowledged as a “**Platinum Elite**” certified partner of Digicert in India & South East Asia. Yes! we are among the 4 chosen most invested partners under this respected category in the APAC region, which is certainly a matter of pride for us. Besides partnership with Digicert, we are associated with other renowned OEMs encompassing Symantec, Veritas, Gemalto (Safenet), Google, Fortinet, and Microsoft to cater an arsenal of IT solutions worldwide.

Organizational Vision

The level of security should never be compromised owing to the monetary annoyances. And, price plays a vital role in the decision of opting any product or services. JNR Management completely comprehends the significance of its corporate social responsibility. Thus, its objective is not only limited to provide the top-notch IT services to its esteemed customers, but also focused on offering them at reasonable price. The conglomerate has an aspiration of making the Internet world a safe place, and has been working on this mission through the excellence of its innovations and overall conduct.

Products & Solutions

The company caters an extensive range of technology products, services and solutions to thousands of customers globally. Our products & services include **TLS/SSL & S/MIME certificates, Hardware Security Modules (HSM), Endpoint & Backup Solutions, Secure IoT Solutions, Business Mailing & Collaboration Solutions, Unified Threat Monitoring (UTM), Multi-Factor Authentication**, etc. Merely selling products and earning revenue does not complete the lifecycle of sales. It includes other significant components, known as Pre-sales & Post-sales support. And, we are too serious about it. It is the reason that our technical support engineers always stay awake to assist our customers pertaining to installation / maintenance & troubleshooting of various technical nuisances.
